These tools are divided into the following categories:

- Interactive games and simulations
- Collaborative learning platforms
- Assessment tools
- Classroom management tools

- Other helpful tools

Interactive Games and Simulations

Interactive games and simulations are a great way to engage students and make learning more fun. They can be used to teach a variety of subjects, from math and science to history and social studies.

Here are a few of our favorite interactive games and simulations:

- Khan Academy: Khan Academy offers a wide variety of interactive games and simulations that can be used to teach math, science, and other subjects.
- PBS LearningMedia: PBS LearningMedia offers a collection of free, educational videos, games, and simulations that can be used to teach a variety of subjects.
- National Geographic Education: National Geographic Education offers a variety of free, educational resources, including games, simulations, and videos.

Collaborative Learning Platforms

Collaborative learning platforms allow students to work together on projects and assignments. This can be a great way to promote teamwork and communication skills.

Here are a few of our favorite collaborative learning platforms:

- Google Classroom: Google Classroom is a free, online learning platform that allows teachers to create and assign assignments, collect

student work, and communicate with students and parents.

- Edmodo: Edmodo is a free, social learning platform that allows teachers to create and share lessons, assignments, and quizzes.
- Schoology: Schoology is a paid, learning management system that offers a variety of features, including online discussion boards, grading tools, and social media integration.

Assessment Tools

Assessment tools can be used to track student progress and identify areas where students need additional support. There are a variety of assessment tools available, from online quizzes to portfolio assessments.

Here are a few of our favorite assessment tools:

- Google Forms: Google Forms is a free, online survey tool that can be used to create quizzes, polls, and other assessments.
- Kahoot!: Kahoot! is a free, game-based learning platform that allows teachers to create and host quizzes.
- Socrative: Socrative is a free, online assessment tool that allows teachers to create and deliver quizzes, polls, and other assessments.

Classroom Management Tools

Classroom management tools can help teachers to manage their classrooms more effectively. These tools can be used to track student attendance, behavior, and progress.

Here are a few of our favorite classroom management tools:

- Class Dojo: Class Dojo is a free, behavior management tool that allows teachers to track student behavior and give rewards.
- Remind: Remind is a free, messaging app that allows teachers to send messages to students and parents.
- Seesaw: Seesaw is a free, portfolio app that allows students to share their work with teachers and parents.

Other Helpful Tools

In addition to the tools listed above, there are a number of other helpful tools that can be used to make teaching and learning more effective.

Here are a few of our favorite other helpful tools:

- Flipboard: Flipboard is a free, news aggregator app that allows users to create and share magazines on any topic.
- Evernote: Evernote is a free, note-taking app that allows users to organize their notes into notebooks and share them with others.
- Dropbox: Dropbox is a free, file-sharing service that allows users to store and share files online.

These are just a few of the many great teacher tools that are available. By using these tools, you can make your class more engaging and enjoyable for your students. And when students are engaged, they are more likely to learn and retain information. So what are you waiting for? Start using these tools today and see how much easier and more enjoyable teaching can be!
