

Exploring the Routledge Handbook of Japanese Sociolinguistics: A Comprehensive Guide to the Language and Society of Japan

The Routledge Handbook of Japanese Sociolinguistics is a comprehensive and authoritative guide to the sociolinguistics of Japanese, providing a detailed overview of the field's key topics, theories, and methods. Edited by leading scholars in the field, the handbook brings together a team of international experts to offer a comprehensive exploration of the language and society of Japan.

Japanese Sociolinguistics: An Overview

Japanese sociolinguistics is the study of the relationship between language and society in Japan. It examines how language is used in different social contexts, how it varies across different social groups, and how it is shaped by social and cultural factors. Japanese sociolinguistics has a long and rich history, dating back to the early 20th century. In recent years, the field has experienced a period of rapid growth, due in part to the increasing interest in globalization and the spread of Japanese popular culture.
