

Shawl Knitting Patterns Inspired By The Work Of Nehemiah Grew

Nehemiah Grew (1641-1712) was an English physician and botanist who made significant contributions to the field of plant anatomy and taxonomy. His work on the structure of plants, published in his book "The Anatomy of Plants" in 1682, was groundbreaking and helped to lay the foundation for modern botany.

In addition to his work on plants, Grew was also an accomplished artist. He made numerous drawings of plants and other natural objects, which were published in his book "The Anatomy of Plants" and other works. His drawings are highly detailed and accurate, and they provide a valuable record of the natural world as it existed in the 17th century.

Grew's drawings of plants have inspired many contemporary artists, including knitters. In recent years, there has been a growing interest in using Grew's drawings as inspiration for shawl knitting patterns. These

patterns are often characterized by their intricate lacework and delicate details, which reflect the beauty and complexity of Grew's botanical drawings.

Shawl Knitting Patterns Inspired By Nehemiah Grew

There are many different shawl knitting patterns that have been inspired by the work of Nehemiah Grew. Some of the most popular patterns include:
